

Mubashir Ali

Location: Karachi, Pakistan | +923253710650 | jamilimubashirali@gmail.com | [LinkedIn](#) | [Github](#)

Motivated and detail-oriented Software Engineering student with hands-on experience in full-stack development, machine learning, and system administration. Passionate about creating impactful, user-focused solutions and eager to contribute to innovative projects while continuously growing as a software engineer.

Education

Mehran UET | Bachelor's in Software Engineering *Jamshoro, Sindh | 11.2021 - Current*

- **Courses:** Programming Fundamentals (C++) • Object Oriented Programming • Data Structures and Algorithms • Database Systems • Computer Networks • Agent Based Intelligent Systems • Operating systems • Information Security • Software Project Management • Mobile Application Development • Data Science
- **Awards:** Participated in a coding competition and got a certificate for actively participating.
- **Societies and Volunteering:** Worked as a Core team member for GDSC MUET, and showed management and teamwork skills.

Technical Skills

- **Programming Languages:** JavaScript, Python, C++, Java, SQL
- **Frameworks & Tools:** React, Node.js, Express.js, Django, MongoDB, Tailwind CSS
- **Development Practices:** Agile Development, Version Control (Git), RESTful APIs, Test-Driven Development
- **Cloud and DevOps:** Docker, GCP, Azure, Linux Administration
- **Machine Learning:** Pandas, Numpy, Matplotlib, Scikit-learn, Data Analysis
- **Other Skills:** Problem Solving, User-Centric Design, Debugging, Leadership

Experience

Bytewise Limited | Software Engineering Intern *Remote | 06.2024 - 09-2024*

- Developed full-stack web applications using the MERN stack, enhancing functionality and user experience.
- Managed and optimized MongoDB databases to ensure efficient data storage and retrieval.
- Managed and optimized MongoDB databases to ensure efficient data storage and retrieval.
- Collaborated with cross-functional teams, gaining valuable insights into software development workflows.

Bytewise Limited | Microsoft Azure Internship *Remote | 04.2023 - 06-2023*

- Gained hands-on experience with Microsoft Azure tools and services, building foundational expertise in cloud computing.
- Created and managed virtual machines (VMs) for diverse use cases, optimizing performance and cost.
- Designed and hosted websites on Azure VMs, ensuring seamless functionality and reliability.
- Configured and managed remote databases, enhancing data accessibility and security for cloud-hosted applications.

Projects

o **CRM Application (MERN Stack):**

[Github Link](#)

- Developed a CRM system using the MERN stack with customer and sales pipeline management features.
- Implemented role-based access control with full access for Admins and limited access for Sales Representatives.
- Optimized application for reactivity, ensuring real-time lead and customer data updates.
- **Technologies & Tools:** React Js, Node Js, Express Js, MongoDB, JWT

o **Car Crash Data Analysis:**

[Github Link](#)

- Analyzed data set to find insights about car crashes in different seasons.
- Discovered the use of Data Structures in real-world problems and how they are used to sort the data.
- Gathered valuable insights from data about car crashes in different seasons and days, and found answers to different situations mentioned in the problem statement.
- **Technologies & Tools:** Core Java, Queues, Binary Trees

Certifications

- AI for Everyone by Andrew Ng (**Coursera**)
- Data Analyst Professional Certificate (**Coursera**)
- Introduction to Cloud Computing (**Google Cloud**)

Interests

- **Machine Learning:** Exploring AI applications and algorithms to solve real-world problems, focusing on interactive and adaptive systems.
- **Cloud Computing:** Understanding cloud infrastructure and its impact on modern software development, particularly in scalable solutions.
- **Technology Innovations:** Passionate about emerging technologies and their potential to drive industry change.
- **AI Research:** Interested in developing agent-based intelligent systems, and leveraging AI for enhancing learning and decision-making processes.

Achievements & Leadership

- Participated in national coding competitions, securing a top-ten finish.
- Led a team of peers in developing a web application as part of a semester-long project, earning recognition from faculty.

Languages

- English (**Proficient**)
- German (**Conversational**)
